 Master at the School might be interested in the
 work and it was proposed if possible to hold
 a garden party in connection with the dinner last that
 end in view.

partly at work at which there had been a

said the Thornd Secretary had written that they
had had an interesting talk. That Racole &
 hoped to organize a second for July.

It was reported that the Bank of England had
suffered at Palmer and that the paper would
appear in the Parents Review.

M. C. C. Literature

Mr. Franklin stated that at a meeting of the Moral Education Committee it had been suggested that the P.N.E.U. might take some of the L.S.C. literature for sale at the office. Mr. Franklin had therefore sent round the four pamphlets published by the Committee to each member of the P.N.E.U. Library Committee for them to report on. The opinions were in favour of accepting both of Mrs. Leppington for sale but not the other two as much of the ground was covered by Mrs. Leppingtons. Mr. Bigham was asked to convey to his Committee this view and at the same time to state that the usual terms, at which the P.N.E.U. sells pamphlets, are that the office receives 12/12 and pays 25% less than publisher's price.

Mr. Brigham undertook to report this to his Committee and report their decision at the next Phil. Committee.

Advertisement

Miss Crawford stated that she had seen Mr. Mason of Miss Smith's firm and that the question of the firm taking so few copies of the Review having answered Mr. Mason explained that the Review could not be displayed on the bookshelves unless a contents placard were displayed at the station; the cost for this would be 25/- per annum per station.

The advisability of incurring this expense was discussed at much length and it was decided that with the present unattractive form of the outside cover of the Parents Review no return would result from the expenditure -

The question of changing the cover of the Review was then discussed and it was decided to write and tell Mr. Mason that the Committee much desired a change as they felt sure that if the cover were more attractive and had on it a table of contents, the Review would have a larger sale.

It was decided to ask Mr. Mason to remove the design on the inside back and to insert there on the inside the title, price, and contents.

It was suggested that the colour was not a good one and a plain cream cover was proposed. It was then put to the meeting that the cover should be changed from red to cream or some pale shade but the motion was lost by a majority of one -

The secretary was instructed to obtain some specimens of outside backs in ^{in white} different shades of red and several qualities of paper and to obtain a specimen of the printing of the inside in plain block letters.

Other Business

Miss Crawford said that Mr. Wood an old member had said how much she considered the standard of the Review had been raised during the last two years.

Mr. Franklin had received letters of appreciation of brochures from Mr. Bruce and Mr. Mercant and also one from Mr. Pottinger.

Sept. 27th was suggested as a probable date for the next Committee.
